

Art. 9106 / 9106.01 Mold cleaner Type SP30 / SP60

Insulated stainless steel heating cabinet with adjustable temperature control.

Place the dirty molds in the cabinet, set the appropriate temperature, and after some time, all the dirty molds will be clean and ready for use again. The mold cleaner is also highly suitable and convenient for preheating molds before use or for warming sheets of paraffin to make them easier to work with. An indispensable tool in any candle-making workshop!

Measurements SP30: 400x405x545 mm

Power requirements Sp30: 230 Volt/400 Watt

Measurements SP60: 450x450x850 mm

Power requirements SP60: 230 Volt/750 Watt
